Dear Professor Bernacer,

My correspondence with Spain has been sadly neglected. I have been travelling almost incessantly since I arrived back in this country, after a very slow trip in the "Marqués de Comilla" in December. Only now have I settled down to the task of responding to your correspondence. I shall shortly write to Professor Sebastian and to your other friends.

I gave a card of introduction to you to an elderly gentleman who will be in Spain for some time, Dr. O. D. Foster. He is a Protestant Clergyman of Iowa. He has travelled much in Ibero-America. Everywhere his sincerity and simplicity have gained the confidence of the people. He has done much to interpret Ibero-America to the people of this country; he hopes to do the same for Spain. He rendered services to the Catholic hierarchy in Mexico years ago, during the persecution of Calles.

He will call on you some day. I shall appreciate your courtesy to him.

Has your latest book been published? If so, when and what is the title.

Best wishes.

Cordially yours,

Señor Profesor Germán-Bernacer T.,
Jefe del Servicio de Estudios del Banco de España
Madrid, Spain
